The complexity of school district operations frequently requires the use of professional legal service. The board shall identify an attorney or law firm for the purpose of providing a source for such services.

A decision to seek legal service in behalf of the school district shall be made by the Superintendent of Schools. It may also occur as a consequence of formal school board action or direction.

When the superintendent concludes the unusual types and amounts of legal service may be required the board shall be advised and authorization to continue such service requested.
