GOALS AND OBJECTIVES

The administration of school system is responsible for the direction, coordination and control of students and staff in their efforts to reach adopted educational goals within the guidelines established by the board policy, law and employee agreements.

To demonstrate leadership and to resolve the inevitable problems and obstacles which will arise both inside the school system and in its relations with the community, the Board expects the administration to be skillful in

1) The process of decision making and communication;
2) How to plan, organize, implement and evaluate;
3) How to coordinate and guide the various centers of power within the school system and the community so as to enable people to do things together for education that might never be able to do separately.

The direction of administration of the school system in all of its aspects shall be delegated to the superintendent, who shall carry out the administrative functions in accord with policies adopted by the Board. The execution of all decisions made by the Board concerning the internal operation of the school system shall be delegated to the superintendent.

The superintendent is to determine the functions each employee is to perform, the relationship between and among them, and establish councils, cabinets and committees to provide efficient and effective operation of schools. In the organization of schools, the management shall balance responsibility with commensurate authority.
