POLICY IMPLEMENTATION

The policies developed by the Board and the administrative regulations developed by the Superintendent of Schools to implement policy are designed to increase the probability of an effective school system. Consequently, it is assumed that all Board employees and students willingly carry them out. In an attempt to insure equitable and just treatment to all, suggestions for changes in, revisions of, or additions to existing policies and regulations are welcomed from employees and students.

In the educational hierarchy, those in supervisory positions are responsible for informing subordinates of existing policies and regulations and for seeing that they are implemented in the spirit intended. Disregard for Board policy and administrative regulation may be interpreted as willful neglect of duty and constitute grounds for dismissal.
