BUS ROUTES

The district shall conduct studies of bus routes in order to provide the safest, shortest routes to get all children to school in the most economical way. Routes shall be arranged in such a way as to equalize as nearly as possible the bus loads, and to provide for the full use of buses. Arrangements shall provide each child transportation to school within the prescribed time limits. Generally, bus routes shall begin no earlier than one hour before school opens and children shall not be in transit from school more than one hour after dismissal.

The official bus route shall not be extended or changed until such proposed change has been reported to the School District Transportation Coordinator, and such a change has been checked to determine whether it meets all rules and regulations pertaining to safety, efficiency, and economy.

Buses shall not go off the scheduled route to pick up children. Children shall not be put off the bus until reaching their destination.
