STAFF INVOLVEMENT IN DECISION MAKING

The Board encourages opportunity for employees to participate in the development, review, and evaluation of district activities.

The Superintendent of Schools is authorized to establish such avenues as necessary and feasible to provide opportunity for personnel to offer suggestions and/or participate in planning activities that affect their duties and responsibilities.

The Superintendent of Schools shall evolve and monitor approximate channels for ready communication of ideas and feelings concerning the operation of the district. The counsel offered by employees, especially those given by groups designated to represent large segments of employees, shall be given careful consideration and identified when the Superintendent of Schools makes recommendations for Board action.
