INSTRUCTIONAL NEEDS OF STUDENTS WITH DIFFERENT TALENTS

Administrators and teachers will design the district’s curriculum and instruction program to meet the instructional needs of students with different talents, interests, and development.

Administrators and teachers should consider and address students’ different talents, interests and academic development when planning the district’s educational programs.

In order to meet the instructional needs of students with different talents, administrators and staff should explore alternative learning programs such as extended learning opportunities, alternative learning plans, distance education, vocational/technical education, and others.
