WORLD LANGUAGES PROGRAM

It is the intent of the Salem School Board to provide students with opportunities to explore a broad range of academic fields. In keeping with the developmental needs of students, a world language program is offered at Salem High School and is offered to qualified students at Woodbury Middle School. The Woodbury School principal or designee will determine the standards for qualification based upon program requirements and availability of qualified instructors.

Content includes basic vocabulary and an introduction to the culture of countries speaking the studied languages. The Salem High School Humanities Director, the teachers in the World Languages Department, and the Woodbury School principal or designee will develop other curriculum components.

With teacher permission, students who demonstrate content mastery in middle school will have the opportunity to continue to study the particular world language at Salem High School at a level commensurate with ability.
