COMMUNITY RESOURCES

The Salem School Board recognizes and supports the continuation of the longstanding positive relationship between the community and its schools. The use of community resources and citizens to assist in furthering the educational program is strongly encouraged. School principals should endeavor to study the needs of their individual schools and utilize the resources available within and outside the school community. This includes, but is not limited to, parents, grandparents, and other family members with specific expertise or talents; the natural resources of the community; appropriate business enterprise and commercial resources; and appropriate service organizations.

Opportunities may include, but should not be limited to, career information events, school-to-careers programs, community service projects, school-business partnerships, artists and writers in residence, parent educational activities, and the reporting of school performance.

Use of individuals outside the school district will conform to policies of the Board, as implemented by the Superintendent and his staff.
