PARENT CONFERENCES

The first report card for students in grade one shall be a parent conference. The building principal shall prepare an appropriate schedule for parents and staff members during the assigned reporting period.

The board believes that communication between parents and staff members will benefit the student. The combined effort of parents and staff members will tend to increase the awareness of all concerned individuals and sharing information may create a better understanding of the young person involved. It is generally accepted that the smaller segments of an individual’s behavior contribute to the whole. With the cooperative efforts of all parties a true and meaningful learning environment may be created.
