The Superintendent or his/her designee will analyze, summarize, and report student assessment results, including (but not limited to) results of State Department of Education required evaluations (NECAP or successor), to the Board annually and use results to evaluate the instructional programs in accordance with Board policies and guidelines.

The Superintendent or his/her designee will report annually to the Board on progress the District is making towards the attainment of its educational goals, including state and federal achievement expectations (e.g. AYP), and improving student performance.
