STUDENT VOLUNTEERS FOR SCHOOL AND PUBLIC SERVICE

The board encourages the utilization of student volunteers in the educational program and in useful community services. However, student volunteers must be capable of carrying out the additional load without endangering their academic achievement. Therefore, all student volunteers shall be expected to maintain their grades, attend all classes, and recognize that the activity to which they are volunteering their services is secondary to the primary goal of completing a public school education.

To make certain students are eligible for volunteer work and to establish the criteria for continuation of volunteer work, e.g. consistent attendance, acceptable grades, teachers and community members are encouraged to discuss the proposal and make arrangements with the building administrator and/or guidance counselors.
