EDUCATION AGENCY RELATED GOALS AND PRIORITIES

The school board appreciates the importance of the school system, but it is also aware of the greater outside world. It is recognized that sharing with other agencies may lead to improved performance and may better serve the individuals of the district.

These goals are established:

1. To encourage liaison with other educational and non-educational agencies within the scope and a responsibility of the participating individual, or individuals, to represent the district.
2. To supply educational services to other agencies when appropriate.
3. To share educational services with other agencies when appropriate.
