College Comparison Tools

Compare Colleges
The averages below are for students from your high school that have been accepted to that particular college.
School averages are displayed in green when your number is higher and in red when your number is lower.

Your PSAT score, if available, has been converted to the equivalent SAT score and compared to the average single SAT score of an accepted student. Your PLAN score can also serve as a direct estimate of your ACT score and can be compared to the average ACT score of an accepted student.
The column labeled "Accept" shows the number of students accepted out of the number of students that applied.
