Miss Dodier’s Morning
Classroom News

Week 4: 9/18/17 – 9/22/17

A Peek at Our Week

Math: In math this week, the children continued to develop their number sense. They now can show the numbers 0-10 in many different ways, including using tally marks, dominoes, and ten frames. We also worked on number writing.

Writing: In writing, we continued working on labelling the classroom. We also wrote a letter to our custodian thanking him for fixing our bathroom door!

Reading: This week we read Chicka, Chicka, Boom, Boom, a story many of us love and had heard before. We discussed how readers reread stories they love over and over to sharpen their skills. The students also received their first “just right” independent reading books and began reading these in the classroom.

We also read Have You Filled a Bucket Today? and began our class kindness bucket, in which the students will earn a marble by showing kindness and caring towards each other and the school. When we fill the bucket with marbles, we will earn an ice cream party!

I-Ready Testing Sidebar
This past week your students participated in their first round of I-Ready testing. This testing is done to better inform my teaching, and to assess the skills your students already have and what skills we need to take more time to learn this school year. This testing will take place again in January and May/June.

Weekly Snapshots

Snap Words
This week we reviewed the snap words:
See, me, I, a, & the

Important Dates
September 28: Picture Day
