ADVANCED COLLEGE PLACEMENT

Any student who is capable of, and wishes to pursue advanced placement courses or college-level work while in high school should be permitted to do so and shall be offered guidance and assistance toward enrolling in advanced courses.

A student whose admission to a college-level course is recommended by a school counselor may enroll in a course at an approved college for college credit, at no cost to the District. Students wishing to receive a high school credit for the course, may request permission from the school principal, through the counselor, to apply the course toward high school graduation requirements.

High School and Career and Technical Education Center students in grades 11 and 12 may participate in the Dual and Concurrent Enrollment Program, through which a student may earn both High School and College credits by enrolling in a course designated by the Community College System of New Hampshire ("CCSNH") as part of the dual and concurrent enrollment program.

The Superintendent or a designee shall ensure that the program will:

1. Require compliance with measurable educational standards and criteria approved by the CCSNH;
2. Require that courses meet the same standard of quality and rigor as courses offered on campus by CCSNH;
3. Require that program and courses comply with the standards for accreditation and program development established by the National Alliance for Concurrent Enrollment Partnerships;
4. Have criteria for student eligibility to participate in the program.
