Classes Offered

**JROTC 1 - Aviation History/Leadership 1:** Focuses on the development of human flight throughout the centuries. Students will perform hands on activities such as kite building to gain an understanding of aviation history and principles of flight. Also a leadership education course focusing on citizenship, character, and Air Force tradition, students will learn about drill and ceremony, self-control and citizenship.

**JROTC 2 - Science of Flight/Leadership 2:** Focuses on the aerospace environment, physiology, principles of flight and navigation. Cadets will fly remote control aircraft, and perform other activities to gain an understanding of the principles of flight. Also students will focuses on communication, awareness, and leadership skills.

**JROTC 3 - Exploring Space/Leadership 3:** Focuses on space technology and the exploration of space. Students build and launch model rockets to enhance their understanding of rocket science. A “hands-on” course focusing on teaching the students valuable life skills, such as preparing for college, employment, and the basics of financial management.

**JROTC 4 - Management of the Cadet Corps:** This course gives cadets the opportunity to put previous leadership courses to practice. Students will plan, organize, and direct the key events of the cadet corps.

**JROTC 5 – Survival/Elements of Leadership:** This course is a basic survival course designed to provide training and hands on practice necessary to successfully perform fundamental tasks needed for survival.

Patriotism

Leading the arrival of the Vietnam War Memorial

Community Service

Cadets with Governor Sununu at the MLK Diversity Dinner

Teamwork

Raising the Largest Flag in Salem

Drill Teams

The Drill team is an extracurricular activity for cadets. Those that join the 2018 New England Drill League champions compete in 4-5 meets.

Washington DC

Every other school year AFJROTC cadets travel to Washington DC for a 4 day field trip. The cadets visit the national mall area and take tours of the Pentagon, White House and Capitol building.

Camp Bell

Annual two night trip where cadet leadership organizes team building and confidence building exercises. Cadets have the opportunity to train on ropes courses supervised by qualified safety experts.

Cadet Leadership Course

Cadet Leadership Course (CLC) is an optional 3 day trip to a military training facility. Cadets will engage in group leadership training; interact with cadets from other JROTC units, and gain team building skills.

Cadets had the opportunity to fly on a Blackhawk
