### College Compare

College compare averages are for students from your high school that have been accepted to that particular college from 2008-2019. Averages have a green checkmark when your number is higher and red "x" when your number is lower. Your PSAT score, if available, has been converted to the equivalent SAT score and compared to the average single SAT score of an accepted student. The column labeled "Acceptance" shows the number of students accepted out of the number of students that applied.
